Comment

I enjoyed the class Dr. Girard. I value the feedback videos you gave us during our assignments as they were very helpful. I think the approach you take in teaching is great for graduate level courses.

I like the individual feedback videos because they give us instructions on improvement in learning.

Lots of ground to cover in a 15 week class. This class workload was a challenge between working a full-time job and taking a second class. I would suggest making the most of the first & second week. Granted its drop add; however, your core student base will be present, and this will set the tone for the class.

Well paced, easy to follow concepts. Enjoyed the case study and pairing is a great idea.

I enjoyed the videos because they were not too long and gave good information. I think giving a little more information about the group project could be beneficial because our group was often confused about the requirements because their was not a lot of information about it. Maybe do the discussions all in one week because I often forgot about the topic by the time I needed to go back and post responses.
