Instructor Questions: Comparative Scores (continued)

10. The instructor returns graded student work in a timely manner.

11. The instructor provides useful feedback on student work.

12. The instructor is an effective teacher.

What did your instructor do well in this course?

Comments

I liked how you had speakers come to class every week to show us different fields that's part of the IT major program at MGA.

My instructor provided us with the work process and steps on an assignment.

He was very good in influencing us to pick a career in IT that we would love to do. Very supportive and enthusiastic.

Explain the lesson

He made it an enjoyable experience.

He did great.

He is extremely enthusiastic on the course material.

Covered a wide range of IT concentrations. Gave us assignments that pertained to the topic at hand.

evething

What changes would you suggest to make your instructor's teaching more effective?

Comments
Don't expect people to understand everything and to automatically know just because it's an IT class. Not everyone in class is an IT major. I liked how you didn't give tests you did weekly assignments.
I do not have any changes to my instructor.
No changes.
Bringing people to talk about the lesson
Teach about the course rather than extracurricular activities.
More Individual work
The teachers introducing the other courses need to be more interactive.
My personal opinion would be to have less team assignments and more individual assignments. But this could just be my social anxiety talking.
nothing

If the instructor makes use of technology in the classroom, is that usage effective?

Comments
The V-Con class was a success.
It was effective of ate instructor using the monitor for both campuses.
Yes, VERY EFFECTIVE!
yes
No. Hybrid breaks often.
yes
YES
Well, its not Dr Girard's fault. But we do seem to have technical problems every time we have class. The calls between locations for hybrid are always messed up in some way and he has to call in the IT support team to fix it.
yes
