## Instructor Questions: Comparative Scores (continued)

10. The instructor returns graded student work in a timely manner.

11. The instructor provides useful feedback on student work.

12. The instructor is an effective teacher.

## What did your instructor do well in this course?

Comments
Most of the teaching was well done, and I appreciate the efforts he took for the class.
He always give us new assignments that helps with a career goal in life.
In his class, we have to do almost every assignment in a group. For me, I've been a great time doing every homework.
Everything
He gave use the tools and the blueprint, and we had to follow it.
Explained well the main topic
Well organized and clear instructions and expectations
Dr. Girard had all the lessons planned out and all the assingments graded in a timely manner he kept the class active and allowed us to have feedback.
Dr.Girard gave me insight towards technology and that we as individuals should be more involved into technology. Because of how fast technology are evolving around us.Group assignments gave me the skill to have social communication with my peers.
Taught students extremely well
everything
He emphasized cooperation
Provided valuable information to get us started with Information Technology
gives a one assignment every week, we can work as a team.

## What changes would you suggest to make your instructor's teaching more effective?

Comments
While I understand tthe importance oof teamwork in IT work environments, having 90% of assignments be group-based for an introductory course is not something I enjoy.
By giving us more information about technology and a examples of how to operate a 3d printer.
Well, First time, I chose this class, I had no idea how it works because this is my first time to join Hybrid class. Actually, It has nothing to do with his teaching style, just for me, being in Hybrid class wasn't effective.
it would've been nice if the technology worked a lot better for the vcon class but overall it was a good experience
There is little to no suggestions I would make outside of keep doing what you are doing.
N/a
None
Some more changes we could have is more interactions with the students and keep them more lively
More exciting lectures or more small activities
Nothing
nothing
NONE
No groups
i believe he is a good teacher

## If the instructor makes use of technology in the classroom, is that usage effective?

Comments
In all cases for this class, I believe this to be true.
Yes
He is really good at using technology things in his class.
yes
He uses technology too keep the lectures from being boring and uninteresting at times.
Yes
Yes
Went our teacher makes use of the technology he allow full use and uses it to its fullest potential.
it was very effective and he also show that in the near future we will have virtual classes.
Yes
yes
YES
yes very effective, we need our technology in order to get things done
He does, most of the assignments we have too use via internet
