Instructor Questions: Comparative Scores (continued)

10. The instructor returns graded student work in a timely manner.

11. The instructor provides useful feedback on student work.

12. The instructor is an effective teacher.

What did your instructor do well in this course?

Comments
he is very passionate about the topics
teaching
Provided in class group projects. They helped us learn the topics.
Dr. Girard did a great job at engaging students in the material. He didn't allow a student to fall behind and always maintained a user-friendly environment
Taught enthusiastically and gave students good examples of real life situations where these skills are needed
Organized, on job of grade, and very enthusiastic about the subjects he teaches making you want to be just as enthusiastic as him about the subject.
Graded in a timely manner. Knew the material well.
Professor Girard is well organized.
I have to say that Professor Girard has great class presence and he fosters a positive teaching environment. He is very knowledgeable in his subject matter and eager to ensure that the class understands important concepts. Unfortunately I don't think a lot of students appreciated what he provided, unless they were truly motivated to learn, but that's not the professor's fault. Our professors epitomize what it means to be educators and Professor Girard is a cut above the rest.
instruct
I enjoyed Dr. Girard's class. I liked the lecture on the first class of the week followed by an assignment the second class of the week.

What changes would you suggest to make your instructor's teaching more effective?

Comments
NA
making us choose our team
none
Check regularly on individuals in group projects making sure everyone is participating in the project. Not everyone has the guts to say something on their own about another team member that is not putting in their work.
None at this time. Great class.
More information on what needs to be in the presentation
I couldn't make suggestions even if I wanted to!!
instruct
Nothing comes to mind.

If the instructor makes use of technology in the classroom, is that usage effective?

Comments
yea its just simple powerpoints though
yea
Yes
Usage of many tools that can help students. Dr. Girard shows many tools that can help productivity of a student and how they will benefit from its use
yes
Yes
ya dig
Yes he uses Power Point, but it only adds on to his lectures. His speech and knowledge on the subject is very impressive to me. I know I am just a student and may not know many things, but Dr. Girard is a great teacher. I know that for a fact.
