9. The instructor evaluates student performance in a fair manner.

## Instructor Questions: Comparative Scores (continued)

10. The instructor returns graded student work in a timely manner.

11. The instructor provides useful feedback on student work.

12. The instructor is an effective teacher.

## What did your instructor do well in this course?

### Comments

He was an excellent teacher of the subject.

Always enthusiastic

It was apparent that he would have like to teach us more if given the time

Dr. Girard was kind, efficient, and knowledgeable regarding designing and testing systems. His enthusiasm for making sure we understand our content is stellar and the hallmark of a great teacher.

His enthusiasm for the subject matter was engaging.

## What changes would you suggest to make your instructor's teaching more effective?

### Comments

None.

Nothing, I found him to be a great instructor.

If he took more into consideration the issues his students where have with the final project given the circumstances

Continue in the same style and dedication.

I think changes should be made to the team project. I think that instead of having students search for a website a list of sites for the students to choose from should be provided. Searching for a website created unnecessary conflict within our group.

**If the instructor makes use of technology in the classroom, is that usage effective?**

Comments
Very much so!
Absolutely
The course already relies heavily on technology
Very effective and efficient.
Yes
