Instructor Questions: Comparative Scores (continued)

10. The instructor returns graded student work in a timely manner.

11. The instructor provides useful feedback on student work.

12. The instructor is an effective teacher.

What did your instructor do well in this course?

Comments

The clear expectation for the final goal of this course. Willing to provide virtual office hours during the COVID19 outbreak.

This class was very "work with your group on your own" but for the parts that did involve Dr. Girard he was very helpful and informative

What changes would you suggest to make your instructor's teaching more effective?

Comments

Please, if possible, help students form a group with people who have programming experience or at least capable of developing something when asked.

–

If the instructor makes use of technology in the classroom, is that usage effective?

Comments

yes.
