I'm not sure there is a good way to improve this course based on it's constraints. About the only way it could be better is if you had a true senior project that lasted two semesters instead of a singular semester. That way the group (or individual) could really produce something. Maybe have that as an option in the course catalog? Anyway, that's just me spitballing. The course was wonderful overall.
Great experience. Very clear communication and expectations. The material was laid out extremely well.
